

Letter of Digital Accessibility Conformance

August 7th, 2018

New York Yankees
1 Steinbrenner Drive
Tampa, FL 33614

Accessible360, LLC is an expert website and technology accessibility auditing, testing, consulting and training business. New York Yankees have engaged Accessible360 to test and evaluate the accessibility of New York Yankees' GMS Field website with a homepage located at <https://www.gmsfield.com>.

Accessible360 performed live-user accessibility testing¹, including but not limited to testing by individuals with disabilities using assistive technology, combined with digital testing tools, on a representative sample of pages of New York Yankees' website. The testing was completed approximately July 9th, 2018.

The following is the professional opinion of the Accessible360 testing team as of the testing date:

- New York Yankees have remediated digital accessibility issues under their control on the site.
- The main content and functionality of www.gmsfield.com is fairly accessible as of our Quality Assurance testing on June 27, 2018.
- In order to substantially conform to Level A and Level AA of the Web Content Accessibility Guidelines (WCAG) version 2.0, Wix, the site platform, will need to implement significant changes to the platform itself.

In addition, New York Yankees has retained Accessible360 to provide ongoing accessibility

¹ The U.S. Government, General Services Administration, stated that: *"No automated evaluation tool can tell you if your site is accessible, or even compliant. Manual testing is always necessary."* [See,
